

Swing Gates

SGM - 100

Mechanical operated swing gates with auto closing. Bi or uni-directional opening. With mechanical or electric lock options available.

Swing Gates

SGM - 100

Materials

Stainless steel post and swivel arm. Acrylic inner plate.

Drive Mechanism

Swing arm is opened by hand.

Options

- WS 1 Uni-directional without lock.
- WS 2 Bi-directional without lock.
- WL 1 Uni-directional with mechanical lock.
- WL 2 Bi-directional mechanical lock.
- WE 1 Uni-directional with electric lock.
- WE 2 Bi-directional with electric lock.

Emergency & Power Cut (WE 1 & WE 2 models with electric lock)

In the event of emergency or power-cut the mechanism unlocks the gate and the gate arm rotates freely. The gate becomes locked itself automatically when the emergency alarm stops or the power is switched back on.

Accessories

- Remote control unit
- Stainless steel opposite post
- Logo engraving
- Posts for access control units
- LED Indicators
